

# FemmeHacks

## How to set up your private GitHub repo:

1. If you haven't already created a GitHub account, make one now!
  - a) <https://github.com/join?source=header-home>
  - b) Choose the free plan, and click "Finish sign up"
  - c) Do **not** check the button to make an organization
  - d) You're all set! Verify your email.
2. Become a member of the FemmeHacks2016 GitHub organization
  - a) Fill out this Google Form to be invited:  
<http://goo.gl/forms/zuVjRDYG8P>
  - b) Only **one** person from each team needs to fill out the form
3. Each team has its own private repository!
4. Now you're done and submit your code onto GitHub!
5. If you're new to GitHub, here are some informational videos on how to get started
  - a) How Organizations work:  
<https://www.youtube.com/watch?v=9WxvRP5gwhA>
  - b) GitHub for Beginners:  
<https://www.youtube.com/watch?v=0fKg7e37bQE>
  - c) Cheat Sheet: <https://training.github.com/kit/downloads/github-git-cheat-sheet.pdf>
  - d) Another GitHub Cheat Sheet: <https://www.git-tower.com/blog/git-cheat-sheet/>
6. If you have any questions, ask a mentor, another hacker, or a volunteer!
